Dry *Brown Lawns* to Lush Green Lawns in Days!

SeaSafe ULTRA™

**LUSH LAWNS WITH LESS WATER
ADDS ORGANICS TO THE SOIL**

**Each Bottle
Covers 3,000+
Square Feet**

Will Reduce Watering Requirements 30 to 60%

IMPROVES COVERAGE and ROOT MASS
ADDS NEEDED MICROBES AND ORGANICS
Rapid Recovery From Heat & Drought Stress
Attracts and Holds Moisture at Root Zone
Fast Growth and coverage of Sod and Sprigs
Maintains lawns with once-a-week watering
Reduces Fertilizer and Chemical Usage
Protection from soil pathogens and stress

ULTRA is a liquid polymer, biostimulant, micronutrient with beneficial microbes, and sea kelp combination that promotes root growth, color, and coverage with less watering. This combination product allows lawns and landscapes to flourish with less watering, chemicals, and fertilizer.

Produces lush green lawns and can turn a brown drought stressed grass green in days. Ideal for new sod.

ULTRA adds organics to the soil that promotes healthier plants that resist pathogens and stressful conditions.

Application Rates:

ULTRA should be applied every 4 weeks (or as needed) for growth and maintenance and for rapid relief from severe drought or heat stress condition. Bottle covers 3000 square feet of established lawn. For vegetable gardens and landscape, apply to the soil around plants and not to the plant itself.

DO NOT APPLY DIRECTLY TO FLOWERING PLANTS.

**Attach garden
hose to Sprayer.**

Remove locking tab.

**Turn on water then
turn sprayer to "on"
position.**

Spray in even pattern over 3,000 square feet insuring all grass is wet. Water after application.
