

Precautionary Statements:

If spilled, surface will become extremely slippery. Non-hazardous to Humans, Fish or Animals. No Protective clothing is required. However, it is recommended that gloves and eye protection be worn when handling and mixing. May cause skin and eye irritation in some individuals.

If product comes in contact with skin, wash thoroughly with soap and water.

If product comes in contact with eyes, flush for 15 minutes with pure water. If irritation persists, seek medical attention.

NO KNOWN ENVIRONMENTAL HAZARDS.

Storage and Disposal:

Avoid storage that may result in freezing. Store at temperatures above 40°F.

KEEP OUT OF REACH OF CHILDREN AND ANIMALS.

Store in cool dry area, avoid high temperatures, and carefully open containers. Shelf life of this product is one (1) year or longer if maintained at temperatures below 70°F and above 40°F.

Slight discoloration may occur after time without product being affected.

In case of spill, confine with any absorbent material. Use absorbent towels or pads to soak up spill. Then wash area with soap and water.

Note: Wear slip resistant shoes when handling spills.

Dispose at any sanitary landfill or other waste disposal site. (Follow all State and Federal disposal laws.)

Warranty:

NaEx Corp makes no warranty, either expressed or implied, concerning the use of this product other than indicated on the label.

NaEx Corp recommendations for the use of this product are based on tests believed to be reliable. The use and application of the product is beyond the control of the manufacturer, therefore no guarantees or warranties are expressed or implied relating to the effectiveness or performance of the product.

SeaSafe™

HYDRAMAX

“Makes Every Drop Count”

**DROUGHT
RELIEF**

**HEAT STRESS
CONTROL**

**IMPROVED SOIL
PENETRATION**

**EVEN DISTRIBUTION
OF IRRIGATION**

**LONG LASTING
MOISTURE RETENTION**

REDUCE WATER USAGE

Golf Courses
Sports Fields
Agriculture

Net Contents: 2.5 Gallon unless noted below

55 Gallon Drum

250 Gallon tote

Contents:

Coconut Alkanolamide, Liquid Copolymer, Surfactants, Sugar Extracts, Humectants, and Water. (NOT A PLANT FOOD)

Application Rates:

HYDRAMAX™ should be applied for rapid relief from severe drought, LDS, heat stress condition, and to reduce watering cycles at a rate of 4 to 6 gallons per acre. Reapply every 6-8 weeks as needed. To relieve hot spots, improve water movement through the soil profile, and to correct browning of hills and undulations apply at a rate of 2 gallons per acre. Re-apply at a rate of 2 gallons per acre for maintenance every 2-3 weeks or as needed.

For vegetable gardens and landscape, apply at a rate of 12 ounces per 1000 square feet. Apply only to the soil around plants and not to the plant itself. **DO NOT APPLY DIRECTLY TO FLOWERING PLANTS.**

Application Method:

Can be applied by boom sprayer, tape irrigation, fertigation, overhead irrigation, hose end applicator, or hand drench.

Tank Mixing Instructions:

Agitate well during filling and application. Mix at a ratio of 25 parts water to 1 part HYDRAMAX (Higher ratios cannot be sprayed properly). Will mix with other products. Always jar test combinations.
